Retail (Fuel) Theft

7NEWS.com.au

They're called 'drive-offs', people filling up with petrol, but not paying for it, an everyday crime that's costing small business 58 million dollars a year.

A BP spokesperson said fuel theft was a growing issue across Australia.

> BP reports all incidents of deliberate fuel theft to police and provides evidence including CCTV footage when required. We appreciate the support of the local authorities in reducing the impact of fuel theft.**A BP spokesperson**

A Caltex spokesperson reiterated that the impact of theft on the industry was significant and it too takes failure to pay “very seriously” and refers all instances of theft to police.

Scancam

The Complete Anti-Theft Solution

The complete anti-theft solution

DETECT

License plates are scanned at the bowser and within seconds alerts the operator on an iPad that the motorist is a known offender and should prepay.

DETER

Scancam is the only system that deters the opportunist with live digital customer facing licence plate displays.

REPORT

If drive off without paying occurs, the Scancam system generates an incident report in a few simple steps, including video footage requiring little management.

RECOVER

Scancam takes care of the debt recovery process, pursuing offenders to collect the unpaid amount, which will be deposited into your account.
