

CCTV Camera

HIGH PERFORMANCE

Exceptional performance even under low – bandwidth conditions with no time.

END – TO – END SYSTEM

Fully integrated infringement platform with evidence

GREATER BUSINESS OUTCOMES

Reduce chronic traffic congestion and safety concerns for pedestrians

“By removing expensive barriers to entry, cities worldwide can provide their citizens with a number of civic services, including fair parking and guidance solutions, as well as ensuring they are safe and clean to live in.”

Subhash Challa, CEO - SenSen Networks

“Parking officers can identify valid visitors within parking facilities through whitelists and blacklists.”

Secure Parking, New Zealand

“Monitor and control all vehicles within parking facilities, and alert security to vehicles of interest.”

City of Las Vegas, United States

“The City Council wants to identify illegal parking faster to improve traffic condition.”

Nelson City Council, New Zealand

“GeminEYE offers intelligence for parking enforcement, and permit management.”

United Public Safety, United States

SLEEK DESIGN

Hardware solution is portable of highest quality and engineered to perform to optimum standards.

- Low-cost & light-weight
- No additional cameras or infrastructure changes required
- Flexible mounting on gantries, poles, walls
- Flexible power options - solar or commercial charging
- Efficient energy operation

DATA INSIGHTS

- Advanced data search to view real time alerts
- Data stored in the database is used to make dashboards.
These dashboards summarize data and give an overview of the data
- Report where every alert is documented, and customer can download them in different formats
- Analytics are also performed on the collected data to draw useful insights. These insights can be used to take decisions.

KEY FEATURES

- Advanced vehicle detection and license plate – reading capabilities
- Built-in face detection and masking – to ensure adherence to privacy laws.
- Fully integrated infringement platform
- High secure data transfer over 3G / 4G / Wi-Fi
- Fully functional back-office system for two level infringement review
- Resilient in extreme weather and environment conditions

BUSINESS VALUES

- Low cost, rapid deployment, operation ready
- Seamless integration and customization
- Turn data into insights

KEY BENEFITS

- Lowering incidence relating to parking and safety
- Highly accurate and visible ANPR and enforcement lines
- Video clips to ensure correctness with the offence images
- Capable of core LPR and beyond
- No external loops and triggers
- Equipped with advanced and patented Vehicle DNA technology to accurately match vehicles
- Powered by SenSen's central back-office software (SenBOS) for robust feature set
 - Vehicle Lists Enrolment
 - Central Management
 - Infringement Review
 - Vehicle owner lookup integrations
 - Parking Infringement Ticket Processing
 - Violations Export
 - Business Intelligence
