

GeminEYE Handheld

World's most advanced LPR on Android

AI-powered real-time License Plate Recognition in the palm of your hand.

Cost effective and extremely portable

Extremely portable, affordable and easy-to-use license plate reader, anywhere for everyone.

Enhance your workflow

GeminEYE Handheld helps business to streamline and improve their workflow with its incorporated AI and app features.

"By removing expensive barriers to entry, cities worldwide can provide their citizens with a number of civic services, including fair parking and guidance solutions, as well as ensuring they are safe and clean to live in."

Subhash Challa, CEO - SenSen Networks

"Parking officers can identify valid visitors within parking facilities through whitelists and blacklists."

Secure Parking, New Zealand

"Monitor and control all vehicles within parking facilities, and alert security to vehicles of interest."

City of Las Vegas, United States

"The City Council wants to identify illegal parking faster to improve traffic condition."

Nelson City Council, New Zealand

"GeminEYE offers intelligence for parking enforcement, and permit management."

United Public Safety, United States

Features & Benefits

GeminEye is a highly versatile smartphone app designed to address the smart city infrastructure monitoring applications including on-street and off-street car parks and collecting data on people and vehicle movements. It's incorporated AI and app features include:

- ANPR
