29 April 2022

## SenSen Achieves Record Q3 Cash Receipts

Melbourne, Australia – Leading sensor AI software and solution provider SenSen Networks Limited (ASX:SNS, “SenSen” or “the Company”) provides an update on its activities for the quarter ended 31 March 2022 (Q3 FY22).

*Note: All figures are in Australian dollars unless otherwise noted.*

### Highlights for Q3 FY22

- Record Q3 customer cash receipts of \$1.7M, a 109% increase over the PCP in Q3 FY21
- Further evidence of ‘land and expand’ strategy with new contract wins with Brisbane City Council and Toowoomba Regional Council, SenSen’s seventh major Queensland council utilising its patented AI sensor systems
- Net Cash used in Operating Activities of \$2.1M during the quarter as SenSen continues to invest in sales and marketing initiatives and implement cost savings initiatives
- Cash and cash equivalents of \$5.7M and unused finance facilities available of \$1.8M as at 31 March 2022
- On track to grow Monthly Recurring Revenue (MRR) to \$0.65M - \$0.7M (ARR of \$8M - \$8.4M) at the end of FY22

# Quarterly Report

**sensen.ai**  
solving the impossible

Activities Report for the Quarter ended  
31 March 2022

The Company recorded Q3 cash receipts from customers of \$1.7M, a 109% increase over the PCP in Q3 FY21 and an improvement from Q2's cash receipts of \$1.5M. This reflects an increase in sales and the fact that SenSen maintains a strong focus on cash collection with only ~7% of receivables overdue more than 90 days.

As noted in Item 6 of the Company's Appendix 4C Cashflow Statement, net payments made to related parties and their associates totalled \$585K for the quarter. The payments comprise intercompany transfer of funds to/from SenSen VBI Pvt Ltd (India), SenSen Networks Canada Ltd (Canada) to fund working capital for international growth during the quarter ended 31 March 2022.

SenSen finished the quarter with \$5.7M of cash and cash equivalents, and unused finance facilities of \$1.8M.

## Operational Update

### Contract wins

Contract wins announced over the past few months further demonstrate the Company's land and expand strategy with existing customers and partners.

In January, SenSen was awarded a contract by Duncan Solutions to help service Toowoomba Regional Council, a Queensland local government, to deploy its sensor AI automated parking enforcement solutions. This contract is valued at ~\$230K over the 36-month period of the initial contract, commencing in March 2022. The win adds a seventh major Queensland council to the growing list of cities utilising SenSen's patented AI sensor systems.

In April, SenSen received a new order for four additional vehicle-mounted AI solutions from leading customer, Brisbane City Council. Commencing in June 2022, SenSen will earn an initial upfront payment of A\$278,000, as well as ongoing annual licensing and service & processing fees of a minimum A\$280,000 per annum on the four additional systems. This new order brings the total to 11 vehicle-mounted systems with Brisbane City Council, a SenSen customer for over five years.

### Optimising business model

During the quarter, senior management has reviewed SenSen's cost base to ensure the business is operating more efficiently. This review has led to actions taken to decrease the cost base by ~10% and includes cost savings in staff costs and professional services.

## Marketing & Sales Initiatives

### Nvidia GTC 2022 Conference – San Jose, California ([www.nvidia.com/gtc/](http://www.nvidia.com/gtc/))

21 – 23 March – SenSen's Smart city products were profiled at Nvidia's global AI conference GTC 2022 and our flagship customer, the City of Las Vegas, led a key panel session giving examples of how smart cities can provide better experiences for citizens through AI-based technology.

### ICE Casino Gaming Conference – London, UK ([www.icelondon.uk.com](http://www.icelondon.uk.com))

12 – 14 April – SenSen's Casino solutions were profiled during the Conference following the recent gaming room tables installation at London's landmark Hippodrome Casino, as part of a multi-year contract with the Casino.

SenSen's AI solution detects and recognises bets placed on gaming tables and extracts critical operational information like number of players engaged in the game, average value of bets placed per player, the game pace, side bet analysis and more, all in real time. The data is then used to power a range of applications linked to improving customer service. It is expected that SenSen's multi-use technology will involve additional modules for the Casino to accommodate legislative and business requirements in both the immediate and long term.

31 March 2022

## C&I Expo – Melbourne, Australia ([www.candexpo.com.au/](http://www.candexpo.com.au/))

30 March – SenSen participated in the Expo, which brings together the latest in Australian convenience retailing and has a strong focus on fuel retail in particular, which forms an important part of SenSen's Anti Fuel Theft solution marketing strategy.

Thousands of owner operators from around Australia visit the conference each year with the majority of attendees in the fuel retail space. Key operational members from major oil companies such as Chevron, BP, Viva Energy and AMPOL were present, representing a good opportunity for SenSen to generate new business, strengthen relationships with existing clients and gain upsell opportunities with developing technologies in the convenience retail space.

## Intertraffic Conference – Amsterdam, The Netherlands ([www.intertraffic.com/](http://www.intertraffic.com/))

29 March – 1 April – SenSen featured at this leading global event for stakeholders involved in traffic management and smart mobility. SenSen captured ~80 leads, including from Europe, APAC, South and Africa, with a focus on rolling out SenSen's existing suite of leading solutions in the near to medium term.

solving the impossible

Activities Report for the Quarter ended  
31 March 2022

SenSen will also be participating in an additional two conferences in this current quarter focused on generating new near-term business opportunities in each respective vertical:

**PIE 2022 (15 -18 May) – Reno, Nevada USA ([pieshow.parkingtoday.com](http://pieshow.parkingtoday.com))** - major annual parking industry conference in the US.

**Global Games Protection and Table Games Conference (6-9 June) - Las Vegas, Nevada USA ([richardmarcusbooks.com](http://richardmarcusbooks.com))** – conference examining current and future casino operations and problems in the sectors of Table Games covering Analytics, Optimization, Technology and Operations.

## Outlook

Monthly Recurring Revenue (MRR) was upgraded in March to \$0.65M - \$0.7M (ARR of \$8M - \$8.4M) at the end of FY22, as customers are recognising more revenue on a software as a service (SaaS) basis.

In Q3 FY22, the floods in QLD and NSW impacted revenues from existing smart parking and curbside management customers in affected jurisdictions as well as the timing of project implementation (and some anticipated new contracts) in both the Smart Cities and Retail verticals. These revenues are now starting to pick up and moving back to historical levels.

There were also delays in the roll out of anti-fuel theft technology in petrol stations due to the floods combined with cautious sentiment from customers in this segment from global oil supply and price uncertainty. Implementation of SenSen's solutions in announced contracted roll-outs is now back on track.

The Company's order pipeline remains robust. No expected orders or contracts have been lost, merely the timing of revenue items is likely to shift into FY23 because of the issues identified above.

This release is approved by the Board of SenSen.

### Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
