#### Abstract

As noted in Item 6 of the Company's Appendix 4C Cashflow Statement, net payments made to related parties and their associates totalled $\mathrm{A} \$ 754 \mathrm{~K}$ for the quarter. The payments comprise intercompany transfer of funds to/from SenSen VBI Pvt Ltd (India) and SenSen Networks Canada Ltd (Canada) to fund working capital for international growth during the quarter ended 30 June 2022.

SenSen also reported Net Cash used in Operating Activities of $\mathrm{A} \$ 1.3 \mathrm{M}$ during the quarter as it continues to invest in sales and marketing initiatives and R\&D to drive top-line growth.

During the period SenSen drew down $\mathrm{A} \$ 1.5 \mathrm{M}$ from a short-term working capital loan facility with Rocking Horse Nominees Pty Ltd. This loan is secured over SenSen's expected Research and Development refund for FY22 and will be paid back in full when the R\&D grant is received in October 2022.

SenSen finished the quarter with $\mathrm{A} \$ 5.8 \mathrm{M}$ of cash and cash equivalents, and unused finance facilities of $A \$ 1.8 \mathrm{M}$, versus cash and cash equivalents of $\mathrm{A} \$ 5.7 \mathrm{M}$ and unused finance facilities of $\mathrm{A} \$ 1.8 \mathrm{M}$ at 31 March 2022.

## Cost Controls

As SenSen drives towards cash flow positivity, management continues to review SenSen's cost base to ensure the business is operating at maximum efficiency. So far, this review has led to actions taken to decrease the operational cost base by $\sim A \$ 2.5 \mathrm{M}$ in FY 23 including reductions in staff costs, professional services, IT, travel and administrative costs.

These cost reductions have been carefully implemented to avoid any impact on the Company's ability to continue aggressively growing its revenue. The cost base is now largely fixed and not expected to materially increase in the near term as the Company continues to expand revenue.

## Operational Update

SenSen has been successful in continuing its land and expand strategy, winning multiple contracts in Q4 FY22 with new and existing global customers covering all business verticals including Smart Cities, Casinos, Fuel Retail and Surveillance with total new minimum contract value amounting to $\sim A \$ 3.8 \mathrm{M}$ in both upfront and Software as a Service (SaaS) recurring revenues from FY23:
